HICAGO LIVE STOCK MARKET

MISCELLANEOUS STARKETS

the closing days of May and the first haif of June.

Weskiness in the foreign exchange market has inspired some unfavorable comment regarding buying power abroad, but this did not seem to attract much aftertion, and spot sales in the Liverpool market have sales in decided increase, owing partly, it is said, to continental buying According to private cables, Lancashire spinners have still a great deal of cotton to buy argainst their forward needs, and houses with Liverpool compositions have been "buyers of new croft, months on the advance. Local split houses were also good buyers during the week, and represented price-fixing by domestic manufacturers or hedging against sales of goods. Toward the end of the week and a private report was published placing the average of 73.25 for the end of May and the sverage of 73.25 for the end of May and the government report of \$2.3 as of May 25 last year.

Dun's Trade Best

May 25 last year.

Dun's Trade Review.

NEW YORK, May 23—Dun's review tomorrow will say in part:
Neither political and economic uncertainties nor the backward season have halted the domestic business revival, which has already assumed beomenaracteristics in certain quarters.

With the passing one by one of the striften regulations and restrictions, business is steadily getting back. The artificial regulations and restrictions, business is steadily getting back. The artificial regulations are received a more natural basis. Specifically hides and leather though reflecting some unwholesome features are especially prominent by reason of their animation and buoyaney, while the improvement in dry goods has continued unbroken and decisive recovery is foreshadowed in iron and steel under the re-establishment of strictly competitive markets. Other leading branches are likewise recuperating from the after-war repression the lumber trade in the Pacific North west, its experiencing noteworthy revival with prices rising sharply, and constitution activities practically the country over are broadening to meet the widespread shortage of housing and business accommodations.

A boom that has had no parallel in previous experience a under ful headway in hides and leather. Even the top prices attained by hides and sking during the war period have been surpassed on the current movement with; indications that attill higher levels may see he established and scarrely less excited conditions prevail in since leathers.

That the iron and steel situation a fortinght after the dissolution of the industrial board and the abandonment of efforts at price stabilization is still richer in arounds. fortnight after the dissolution of the industrial board and the abandonment of efforts at price stabilization is still formance, the week's advices have demonstrated.

MANNHEIM IN PANIC

Citizens, Fearing Occupation by Allies, Storm Banks and

MANNHEIM. May 23—Alarmed by the belief that Germany will no sign the peace treaty and that the allies will occupy Mannheim, citizens became panic, striken today and stormed the Municipal Savings Bank. Many persons have field from Mannheim.

Lapse crowds later gathered and held protest meetings and other damonstrations which added to the general confusion in the town.

An official expression of regret has been issued in Burlin that the people of Mannheim "appear to have lost their heads"

Retail Markets Look Summerish

Good Things From Near-By Truck Farms-New Fruits From South.

So far as produce is concerned the Those in search of good things for Saturday and Sunday spreads will this morning find several kinds of fresh Hanover and Henrico County vegetables. They will also find peaches, cherries and canteloupes from down South, and, in the fish market will resolution.

[By Associated Press.]

WASHINGTON, May 23.—Representative Mondell, the Republican floor leader, announced today that the House Post-Office Committee would consider resolutions. much of a spring-summer appearance.

AMERICAN MISSION IS

Artistic Relations Between Two Countries.

IBy Associated Press. I

HAVRE, May 23.—An American mission coming to France for an examination into the development of the economic, intellectual and artistic relations between France and the United States reached here Wednesday on the steamer La Savele.

It was welcomed on board the steamer by Deputy Maurice D'Amour and M. Roz, head of the American department of the public information commission and others. The mission was entertained at luncheon by the Chamber of Commerce, and afterward was taken on a tour around the town. The mission proceeds to Rouen today and then to Paris. It will assist at the inauguration of the Berdeaux fair, and visit the principal French towns in the liberated region and Alsace.

DOES NOT ADMIT DEFEAT

Antero Aspillaga, Candidate for Pres-ident of Peru, Declares Result in Doubt,

LIMA. Thursday, May 22—Antero Aspillaga, a candidate for President of Peru in the elections Sunday and Monday, declared today he did not admit the election of Augusto B Leguia, the candidate of the Independent party. He said that reports received by him made it impossible to make a definite statement on the result of the election. The final decision. Senor Aspillaga contends, rests wholly with the Congress, which convenes July 28. Peruvian political and commercial leaders were confident today, however, that Senor Leguia had been elected. Unofficial estimates have made it apparent that he was elected by a comfortable majority.

We're Drilling for Oil

On four different tracts, in the very heart of the richest Texas Oil fields

West of the Burkburnett townsite

Paradise." There are 275 producing wells in the townsite of Burkburnett alone, each one has made a fortune for its owners. This field extends westward from the townsite, and is proven for a considerable distance in all directions—its limits have not yet been defined. Already \$5.976,581.00 in dividends have been paid by 70 Burkburnett oil companies, not one over six months old. Many have sold out for fabulous sums. The most recent one brought \$2,000,000 cash, netting the stockholders \$3,333.33 for each \$100 invested.

And this is but ONE of the vast OIL POOLS that have, in a very brief time, wen for the Texas fields the distinction of being the

The production of the Ranger field is over 100,000 barrels daily, an income of a quarter million dollars every day; 90 per cent of production in this great Ranger field lies between the arrows as shown on the small map reproduced below. Note that O-Tex Production Co. have three valuable leases here, absolutely PROVEN for oil.

Think of the possibilities O-Tex Stock offers to investors

field. We are just 600 feet from such wells as the Gilliland No. 17, making 3,000 barrels daily, and McMann No. 13, making 2,000 barrels per day. From 15 to 20 wells, producing from 1,200 to 2.000 barrels daily, range from 600 to 1.200 feet from our derrick. This well is an ABSOLUTE 100 to 1 shot for oil. There's not a dry hole in all this territory. Every well that has reached the off sand has come in for big production. This well will be completed within two or three

Another well will be started without delay on our 20-acre lease in the Iowa Park field -also one on each of our wonderful tracts in the famous Duke pool. The derrick is already on the 200-acre tract.

O-Tex gets seven-eighths of production from all their leases; 50 per cent of earnings will go to cash dividends and 50 per cent to further developments, until all our valuable holdings are fully developed. The locations of our first four wells make our stock as SAFE as the most conservative 6 per cent investment, and the profit possibilities are unlimited.

When our first well starts spouting oil you'll envy the man who owns O-Tex stock. This one well will return your investment many times over. Use your foresight and buy NOW. Delay spells disappointment. We invite your inquiries and closest investigation, but you must ACT QUICKLY. There is but a small block of this stock left and the demand has been lively since our first well started drilling.
